SUMMARY

Business and data analyst with 2+ years across analyst roles and internships in retail, compliance and consulting in Australia and the US. Turns raw data into forecasts, dashboards and recommendations with SQL, Python, R, Power BI and Tableau, including automated reporting that saved $250K in staff time. Builds and evaluates AI tools. Graduating December 2026.

EDUCATION

University of California San Diego, Rady School of Management — San Diego, CA
Master of Science in Business Analytics (STEM-designated) | GPA: 3.75 — Jul 2025 - Dec 2026
Relevant Coursework: Customer Analytics, Machine Learning, Prescriptive Analytics, Scalable Analytics, Web Mining

The University of Sydney — Sydney, Australia
Bachelor of Arts, International Relations and Sociology (Double Major) — 2023

PROFESSIONAL EXPERIENCE

Supabarn — Sydney, Australia
Data & Business Insights Analyst — Mar 2025 - Jul 2025
- Ran financial and competitive analysis that informed pricing and markdown decisions, cutting markdown costs by 10%.
- Built KPI dashboards in Power BI and SQL, saving 10+ hours a week and reducing forecast error rate by 18%.

Intertek SAI Global — Sydney, Australia
Product & Data Analyst (Contract) — May 2024 - Nov 2024
- Automated risk reporting with SQL, Python and Power Query, cutting reporting cycles by 30% and saving $250K in staff time.
- Helped migrate compliance and risk data from Salesforce to the company's in-house system, allowing Salesforce to be retired.
- Validated 100+ migrated reports in SQL against the Salesforce source data, cutting audit preparation time by 35%.
- Gathered requirements from 4+ stakeholder teams to build Power BI and Tableau dashboards, speeding up approvals by 40%.

Sequent Global Technologies Inc — New Jersey (Remote)
AI & Digital Transformation Intern (Part-time) — Jan 2024 - Oct 2024
- Automated client workflows with Python, SQL and Power BI and built Tableau and Excel dashboards, improving efficiency by 28%, response times by 35% and decision accuracy by 25%.
- Rolled out HubSpot and Microsoft Teams and led analytics workshops for client teams, increasing automation adoption by 40%.

BPM Vision — Sydney, Australia (Remote)
Business Strategy Analyst Intern (Part-time) — Oct 2023 - Sep 2024
- Analyzed 1K+ customer feedback records in Power BI and Excel to guide client planogram changes, raising client retention by 12% and process efficiency by 18%.
- Wrote onboarding and training documentation that cut team ramp-up time by 25%.

Lovisa — Sydney, Australia
Retail Strategy & Operations Assistant (Part-time) — Feb 2023 - Feb 2024
- Automated reporting and KPI tracking for 50+ stores with Python, Excel and SQL, lifting reporting efficiency 30% and customer satisfaction 12%.
- Analyzed customer data in Power BI with marketing and head office teams, supporting a 15% lift in campaign engagement.

PROJECTS

Crafter.com Inventory Optimization Capstone — UC San Diego
Team Lead, Client Consulting Project — Spring 2026
- Led a four-person team analyzing 176 SKUs, showing stockouts recorded as zero demand were pulling forecasts down, and recovered about 6% of suppressed A-class demand across 360 reconstructed stockout months.
- Built an XGBoost demand forecast (out-of-sample R^2 0.48, MAPE about 12%) that beat SARIMA, Ridge and a naive baseline, and a budget-constrained buy list with a projected 3.8x ROI on a $15K budget.

Fraud Detection Model — UC San Diego
Fraud Analytics Coursework — 2026
- Built a LightGBM model on 1M credit card and phone applications (1.44% fraud rate) with out-of-time validation, catching 58.9% of fraud in the top 3% of flagged records, about 20x a random ranking.

Generative AI Assistant and AI Agent — UC San Diego
MSBA Elective Team Project and Solo Workshop Project — 2026
- Built a RAG assistant with LlamaIndex, Claude and tool calling (88% accuracy on a 40-question test set) and a live assignment-checking agent with Claude and LangChain (89% accuracy).

SKILLS AND CERTIFICATIONS

Technical: SQL, Python, R, Excel, Power BI, Tableau, Power Query, Snowflake, Google Analytics, Salesforce, HubSpot, LlamaIndex, LangChain
Analytical: Data Analysis, Forecasting, Machine Learning, Optimization, A/B Testing, KPI Dashboards, Data Validation, Data Visualization
Business: Requirements Gathering, Stakeholder Management, Process Improvement, Client Presentations, Competitive Analysis
Certifications: Machine Learning with Python (IBM); Statistics with Python (University of Michigan); DataCamp Data and AI Track
